At Capricorncorp

We're not just a software development company, we're your digital transformation partner.

Our Story

Capricorncorp's journey began with a shared passion for creating solutions that make a difference. We've grown from a small team of tech enthusiasts to a formidable force in the industry. Our success is built on a foundation of unwavering commitment to delivering quality combined with an in-depth understanding of diverse sectors. We thrive on complex challenges, where our experience and expertise truly shine.

Flutter	Content Writing Services	
IOS Native	UI UX Design	

Work Methodologies We use

→

- ## Agile (Kanban/Scrum)

  Capricorncorp embraces Agile methodologies, with a focus on both Kanban and Scrum frameworks, to elevate your project management and development processes. Our Agile approach ensures flexibility, adaptability, and rapid response to changing requirements. With Kanban, we optimize workflow visualization, promoting efficiency, and Scrum enhances collaboration through iterative development cycles. Partner with Capricorncorp to harness the power of Agile methodologies, accelerating your project timelines and delivering results that align seamlessly with your evolving business goals.

- ## LEAN

  Capricorncorp integrates LEAN principles into our solutions, ensuring your business operates with optimal efficiency and productivity. By eliminating waste and streamlining processes, we empower your organization to achieve more with less. Our LEAN approach goes beyond cost reduction; it's about fostering a culture of continuous improvement and innovation. Partner with Capricorncorp to embrace LEAN methodologies, driving sustained excellence in your operations and positioning your business for long-term success.

- ## Test and behavior driven development

  Capricorncorp excels in Test-Driven Development (TDD) and Behavior-Driven Development (BDD) to deliver reliable software aligned with business objectives. With TDD, we prioritize code quality through rigorous testing, and BDD fosters effective collaboration between technical and non-technical teams. Partner with us for efficient, quality-driven development that meets both functional and business requirements.

Work Methodologies We use

- **Project Management**

  Capricorncorp takes the lead in project management, ensuring seamless execution from inception to completion. Our adept project managers employ industry-best practices, fostering collaboration and ensuring timelines and budgets are met. With a focus on transparency and effective communication, we navigate complexities to deliver successful outcomes. Partner with Capricorncorp for meticulous project management that brings your vision to fruition with precision and efficiency.

- **Extreme Programming**

  Capricorncorp embraces Extreme Programming (XP) to elevate software development. With a focus on collaboration, continuous feedback, and flexibility, our XP approach ensures rapid adaptation to evolving project requirements. Pair programming, test-driven development, and frequent releases are integral to our XP methodology, fostering a culture of efficiency and high-quality code. Partner with Capricorncorp to experience the benefits of Extreme Programming, delivering software solutions that exceed expectations in speed, adaptability, and quality.

Business Verticals

- ## Trainings

  Capricorncorp specializes in empowering teams through cutting-edge training programs. From emerging technologies to industry best practices, our tailored courses equip your workforce with the skills needed to thrive in the ever-evolving IT landscape. Invest in continuous learning with Capricorncorp's training modules, ensuring your team remains at the forefront of innovation.

- ## Recruitement/Staff Augmentation

  Capricorncorp excels in curating high-impact recruitment solutions for your organization. Our innovative approach goes beyond conventional methods, ensuring we identify candidates who not only possess the requisite skills but also resonate with your company's unique ethos. Rely on us to build a dynamic team that not only meets the demands of the present but is poised to seize future opportunities.

- ## Managed Services

  Capricorncorp's Managed Services redefine the way you navigate IT challenges. Our dedicated team ensures seamless operations, proactive monitoring, and swift issue resolution, allowing you to focus on your core business objectives. With a customized approach, we provide end-to-end support, from infrastructure management to cybersecurity, ensuring optimal performance and reliability. We offer Web Development, Cloud Development and Offshore Development Services.

- ## Consulting

  Capricorncorp's Managed Services redefine the way you navigate IT challenges. Our dedicated team ensures seamless operations, proactive monitoring, and swift issue resolution, allowing you to focus on your core business objectives. With a customized approach, we provide end-to-end support, from infrastructure management to cybersecurity, ensuring optimal performance and reliability.
